From the Headmaster, Dr Richard Maloney

Uppingham School has the highest ambitions for science education. Not only have we built the very best building for teaching science in the country, but we aspire for Uppingham to be the national centre for excellence in science education in the United Kingdom.

Our aspirations mean that we are not just looking for an outstanding teacher to be our next Head of Biology – capable of inspiring and leading pupils and staff – but someone who has the vision and energy to help make Uppingham a hub of innovation for science education.

Naturally, we aspire for pupils to achieve outstanding outcomes in biology. However, we want Uppinghamians to be inspired, challenged and empowered to work at the highest academic levels. We value learning in depth and, given the popularity of the subject, there are wonderful possibilities for someone to achieve very special things at Uppingham.

I hope you find this a challenge you want to take on. You will find the facilities wonderful, the people fantastic, and our ambition unparalleled. We aspire for Uppingham to be the very best school and want only the very best people to work with us.

I look forward to meeting you.

Biology and Science at Uppingham

There are five specialist Biology teachers, working in a highly collegiate faculty of fifteen teachers, supported by a superb technical team. In the Lower School (Years 9-11) all pupils work towards either AQA GCSE separate sciences or CIE IGCSE Combined Science. In the Sixth Form there are currently 40 pupils studying AQA Biology A level.

The Biology department offers a wide range of extra-curricular and enrichment activities. Potential medical and veterinary applicants are thoroughly supported; there are Lower School and Sixth Form groups for the most able scientists as well as a popular Science Society. The Biology Olympiad is well established. There is an impressive record of successful applications for Biosciences at university. The department is well-funded and particularly well-resourced but new initiatives and experience are welcomed.
